The Job Networking Sessions
of the Ecoles Centrale and their Italy T.I.M.E. partners
2020-2021

GEC Italy coordination Frédéric Dorel & Jocelyn Fiorina

Frédéric Dorel T.I.M.E. G.A. Barcelona 10/2020
The JNS spirit: a “full T.I.M.E.” event

- A full day of informative dynamic and interactive sessions between students, graduates, HR managers

- One-to-one meetings and roundtables

- Few participants, tailor-made high level offers and expectations

- Recruitment by giving companies a direct privileged, exclusive and personal opportunity to meet our world-class engineers and executives, for them to understand the added value of our Double Degrees
2019-2020 Original proposition

- In June/July 2020, the 9th edition of the Euroscience Open Forum (ESOF 2020) was to be held in Trieste. Its values in line with the ones of T.I.M.E.

- A JNS in the period and in the area of ESOF in order to:
  - articulate it with this open forum
  - strengthen the links with international companies
  - develop a TIME students & alumni spirit
  - give an institutional visibility at an international level.

- Closest Italian partner in the area: the University of Padova.

- Companies + Double Degree TIME alumni having completed mobility between France, Germany and Italy (between the 3 TIME partners CentraleSupélec, Politecnico di Milano and TU Berlin).

- Access to ESOF to the alumni and to the partners, in order to
  - network
  - have a dedicated scientific session on a topical issue like ethics in AI.

- Padova is a less frequent destination than Milano or Torino

- The university has to be valorised due to its high scientific and economic level. A very rich area in scientific and economic terms.

- Outside of the better known areas of Milano and Torino: a new development.
But…

CORONA LISA
The T.I.M.E Board has just given us a second chance for an improved version.
2021 Proposition

ALMOST THE SAME

OR

ALMOST THE SAME ONLINE

- JNS 2021 in Padova? Online? No ESOF…
- The project needs preparation time.
- First decision to been taken by the partners in November ‘20, with the support of the French embassy and consulates in Italy.
- Logistical issues discussed with the Career Service at the University of Padova and the different partners, frequent confcalls planned up to the implementation in June ‘21.
- Material of past JNS events collected to create the ones for the new occurrence.
- Companies will be contacted in February ‘21, first information to the alumni in March ‘21.
- Last week of June ‘21.
- A report will be produced at the end of the event and a debrief will be done.
- Outcomes will be shared for new occurrences for the years to come as well as for the TA VIE Erasmus+ Programme Key Action 2.
- Meetings will be planned in 2021-2022 to draw conclusions and decide the organization of the next events.
Tools for Enhancing and Assessing the Value of International Experience for Engineers.
