# RESEARCH

- Unicamp was established with a strong focus on research.
- Moreover, a balance between undergraduate and graduate students positions Unicamp as a research-oriented university.
- The university is responsible for 7% of Brazil's scientific production.
- Unicamp has been securing funding from FAPESP, the research funding agency of the state of São Paulo, from federal agencies (CNPq, FINEP, etc.), and from the private sector.

Brazilian physicist César Lattes at Unicamp.

## Thematic Research Centers

### Energy

### Environment

### Health

### Chemistry and Materials

### Digital Transformation

- The Campinas region stands as a dynamic technological hub, hosting major industries across diverse sectors and a flourishing start-up ecosystem. It is also home to several renowned R&D&I institutes, including the Brazilian Center for Research in Energy and Materials (CNPEM).

Sirius, the new Brazilian synchrotron light source.

# INNOVATION

- Ranking of Invention Patent Applicants: Unicamp is among the three universities that applied the most patents in Brazil and the first in the state of São Paulo in 2023 (51 patents).

# INNOVATION

- Unicamp Alumni Companies

- 65 Undergraduate programs.
- Admission are done by an entrance exam applied yearly.
- Affirmative Action Program (PAISS) for underrepresented groups (blacks and browns) and a national exam for the admission of indigenous people.
- Admission based on performance in the thematic National High School Olympiads (Math, Physics, History, etc).
- **2023 figures:**
  - Vacancies Offered: 3,435;
  - Registered Candidates: 104,387;
  - Candidates per Vacancy: 30.40.

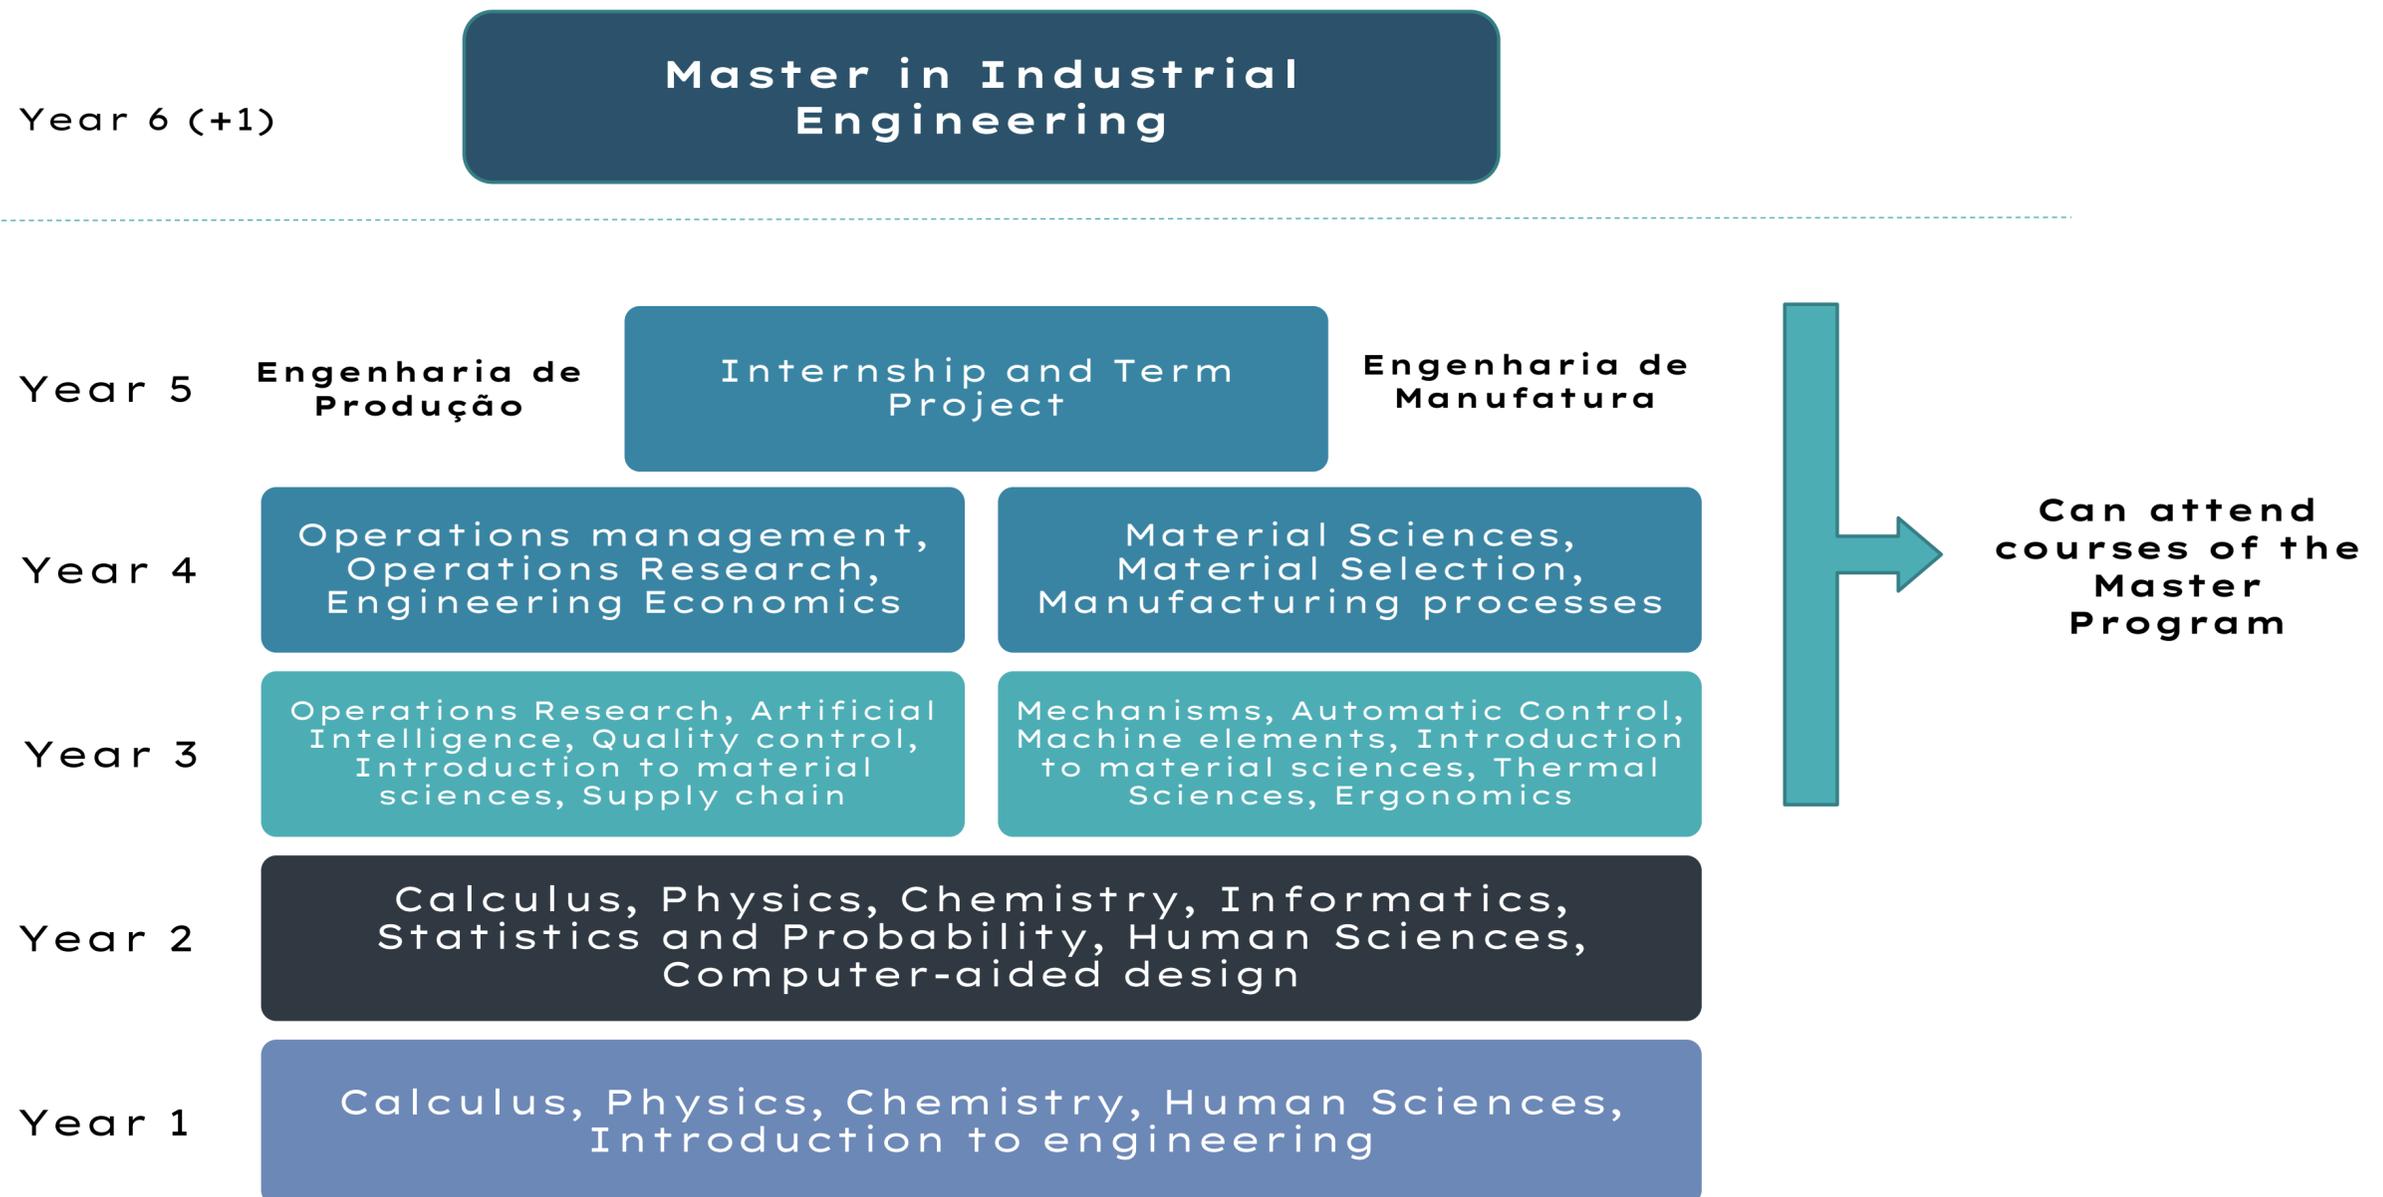

# ENGINEERING PROGRAMS AT UNICAMP

- Agricultural Engineering
- Civil Engineering
- Food Engineering
- Computer Engineering
- Control and Automation Engineering
- Electrical Engineering
- Mechanical Engineering
- Chemical Engineering
- Environmental Engineering
- Manufacturing Engineering
- Production Engineering
- Telecommunications Engineering
- Transportation Engineering

Other partners

# ENGINEERING PROGRAMS AT UNICAMP

- Courses are taught in Portuguese.
- Each semester, there is a set of lectures taught in English.

<https://internationaloffice.unicamp.br/en/e-studantes-intercambistas-internacionais/>

- Moreover, international students can attend Portuguese lectures free of charge.

# ENGINEERING PROGRAMS AT UNICAMP

## Practical information for double degree (DD) agreements

- All engineering programs are eligible for DD agreements.
- Academic Year: The first semester begins in February/March, and the second semester begins in August.
- Cost of living for a student at Campinas ~400-500 Euros
- The courses to be taken are defined jointly with the partner; however, foreign students usually follow paths during the third and fourth years.
- Funding opportunities: Scholarships from FAPESP and other agencies.

## Opportunities

- Visiting professor program.
- FAPESP and national agencies funds seed projects to initiate collaborative research.
